SYNOPSIS

This action-packed adventure for family audiences follows Reodor Felgen, a brilliant but eccentric inventor, and his two unlikely friends - Solan, a daring magpie, and Ludvig, a timid hedgehog - as they attempt to redeem themselves by competing in the legendary Paris-to-the-Pyramids rally.

Equipped with their extraordinary racecar, Il Tempo Gigante, the trio embarks on a high-stakes journey through bustling Paris, the perilous Italian Alps, and the scorching Egyptian desert. With their home, friendship, and lives on the line, they must prove that ingenuity and determination can conquer any challenge.
